## **CUSTOM BOAT LOADERS**

### **NOTES TO CLIENT**

**IT IS ESSENTIAL THAT THE INFORMATION OF THE VEHICLE AND BOAT GIVEN BY ARE CORRECT.**

**IF AN INCORRECT BEAM WIDTH IS PROVIDED THEN THE BOAT MAY NOT FIT THE LOADER (BE TOO WIDE FOR THE LOADER).**

**IF THE BOAT WEIGHT IS UNDER-ESTIMATED IT MAY BE TOO HEAVY – IF > 75KG WILL REQUIRE A 100:1 GEARBOX, OR EXCEED THE ROOF CARRYING CAPACITY OF THE VEHICLE.  
IT IS YOUR RESPONSIBILITY TO PROVIDE CORRECT DETAILS.**

**ARE ANY GUNWALE RAILS FITTED? – A FULL RAIL IS FINE BUT A BOW AND A SEPARATE STERN RAIL WON'T WORK. EITHER THE STERN RAILS WILL NEED TO BE REMOVED OR A RAIL INSERTED IN THE SECTION BETWEEN THE STERN AND BOW TO MAKE A FULL RAIL.**

**HAVE ANY OTHER MODIFICATIONS BEEN MADE TO THE BOAT THAT MAY AFFECT THE OPERATION OF THE LOADER?**

**THE CLIENT IS RESPONSIBLE FOR ANY COSTS INCURRED TO RECTIFY PROBLEMS ARISING FROM PROVIDING INCORRECT INFORMATION!**

**IF IN ANY DOUBT PLEASE REFER BACK TO CUSTOM BOAT LOADERS**

**PH: CUSTOM BOAT LOADERS (08) 9397 0408**

**CAMERON MANEY 0438 951 850**

**OR**

**BILL MANEY 0429 112 526**

**OR**

**DIAN MANEY 0419 951 851**

- **NOTE:**

**Please ensure vehicle wiring from battery to 50amp Anderson plug is a minimum of 8 B & S cable (same as power lead provided) with a 40amp circuit breaker. Both cables to run from battery to Anderson plug.  
DO NOT EARTH to CHASSIS.**
